The New White Tea Rose "IVORY"

Illustrated on front cover.

Last year we thought we had a Rose to illustrate on our cover that could not be improved upon, but in this new Rose, Ivory, a "sport" from Golden Gate, we have one that is unsurpassed to date. Its parent, Golden Gate, is probably the freest-flowering Rose of its type in cultivation, but unfortunately lacks in decided color, on which account it has never met with much popularity. The variety now offered, "Ivory," embodies all of the good points of its parent, size, freedom of bloom, strong, vigorous, healthy growth, with a pure white color, which makes it an invaluable acquisition, and a Rose which must at once meet with popular favor.

The flowers brought the highest prices during the past year and at the principal exhibitions have been awarded the highest honors.

Knowing the demand there will be from the cut flower grower, as well as the amateur, on account of its easy growth and freedom of flower, we have grown a large number of this Rose of wonderful merit, which we offer at the following prices: Nice young plants, 20 cents each; two-year-old plants, 40 cents each.

"ALTA" SEED COLLECTION

(In color on inside of back cover.)

"Alta," meaning highest quality, is our motto, and will be our aim for every seed in this collection. No garden is complete without Nasturtiums, Sweet Peas, Pansies, Poppies, Pinks and Asters. In the collection we include the most striking varieties of each, chosen for distinct and rich colors and good flowering qualities.

Sweet Peas. This mixture is from named varieties in crimson, deep purple, pink, lavender, pure white and striped. A packet of this mixture contains 200 seeds.

Nasturtiums. A splendid flame color, a rich crimson, a striking red and yellow and a few other choice varieties are included in this mixture. 75 to 100 seeds in a packet of this mixture.

Poppy. An exceedingly showy and easily cultivated class of plants, blooming freely with cup shaped flowers, 3 to 4 inches in diameter, and of the most delicate and pretty shades of color.

Pink. These beautiful free flowering half hardy plants furnish an abundance of bright and varied colored flowers all through the summer and fall until severe frost.

Pansies. Of the best gilt and gold edged and blotched strains, imported from the largest German growers. Colors range from the highest shades to the richest dark velvet.

Asters. Well known for their unique appearance, resembling the Chrysanthemum. Easy to grow and flowers freely; colors white, lavender, pink, yellow and blue, but in this collection one-half of the seed will be the expensive lavender.

The "Alta" Seed Collection, a large packet of each of the above, for 25 Cents.

THE "EXHIBITION" Chrysanthemum Collection

(Illustrated inside of front cover.)

Six Distinct Chrysanthemums for 50 Cents.

Adele. A new globular, incurved variety. A delicate pink and very early flowering, making it a good commercial sort. An easy grower with a fine stem and foliage. Price, 15 cents each.

Queen of Yellows. An exceptionally fine Chrysanthemum from the white variety Queen. The color is a clear lemon yellow, which is always pretty with the other colors. The flower is large and borne on a stiff, well foliaged stem. Price, 15 cents.

Timothy Eaton. The sensational novelty of the year. It is an enormous globular, Japanese incurved variety of perfect form and growth. Color a pure white, even whiter than its parent, Minnie Wanmaker. Timothy E. has captured every cup and prize for which it has been entered. Price, 25 cents each.

Black Hawk. The darkest red yet raised, velvety crimson-maroon. Outer petals very much reflexed and center erect, making a very large flower. A variety that can not be surpassed in its color. Price, 15 cents each.

Lavender Queen. A new large Japanese variety, with outer petals reflexed and center petals erect, making a flower of great depth. In color a pleasing shade of lavender pink, decidedly distinct. This variety has given entire satisfaction and is highly recommended by all. Price, 15 cents each.

Goldmine. Another variety of exceptional note. This variety is a rich golden-yellow, outer petals reflexed and center incurving in a whorl. An easy variety to grow, and a prize-winner in many of the late shows. Price, 15 cents each.

The "Exhibition" collection of six fine Chrysanthemums for 50 Cents.

THE

"ROYAL PRINCESS" Collection of Six Roses for 50c.

(Illustrated on back cover.)

An up-to-date collection of five new Tea Roses which are selected for their freedom of blooming, strong growth, hardiness and diversity of color.

The Complete Collection for 50 Cts.

Large two-year plants for \$1-50.

Princess of Bulgaria. This Rose has taken a foremost position as a Rose for general culture, and its striking color and free growth give it popularity wherever grown. A delicate pink, shaded deeper at edge of petals. Flowers large and very double; produced freely.

Crown Princess. This Rose is a vigorous grower, with large, fine foliage, and is one of the loveliest of all Roses. The color is a pure waxy snow-white, the center of the flower has a lemon tint, just enough to light up and brighten it, and to those who desire a fine double flower when fully expanded, this will meet your wants, as it is very beautiful when full blown.

Princess Helen. One of the best and most beautiful yellow Tea Roses for general planting. It is of good constitution, one of the hardiest of the Teas, and may be had in bloom the entire year by proper treatment. The flowers are of good size, deep and full and very sweet scented; color rich golden yellow.

Princess Vera. An excellent Rose that has become a great favorite. The flower is of large size, of exquisite shape, with heavy, thick, shell-like petals; buds long and pointed, similar to Niphetos, but very much larger and borne on stiff, erect stems; color delicate, rosy flesh, shaded a trifle deeper at the center. An extra good garden Rose.

Princess Venosa. A strong grower, producing a long bud, flower large and beautifully formed. Color nankeen-yellow, with shadings of carmine. A most remarkable combination of colors.

Princess Bonnie. One of the finest dark colored Tea Roses. Very nearly hardy in most parts of the country. In color, solid crimson. Is already a prime favorite and will be planted even more extensively.

To Our Friends and Patrons:

We take pleasure in presenting our new book, "Floral Gems," which, you will notice, has been increased to some extent and with new illustrations has been made one of the handsomest books of the kind published. With a larger and increased stock, particularly in the hardy Herbaceous, Shrub and Seed line, and increased facilities, new buildings, and larger force to operate, we are better fitted today to supply your needs than ever before.

This being our thirty-sixth year of experience in plants, bulbs and seeds, we have the best and safest methods of packing and shipping plants, so that we can assure safe arrival of all goods, by mail or express.

Thanking you for the courtesies shown to us in the past and hoping that we may supply your further requirements, we are, Respectfully,

FRANK MCGREGOR, President.
DAVID MCGREGOR, Vice-President.
ROY MCGREGOR, Secretary.
ALLAN MCGREGOR, Treasurer.
HAROLD MCGREGOR, Manager.

THE MCGREGOR BROS. CO.

We respectfully call your attention to the following directions, which will be an aid to purchasers as well as ourselves:

Plants by Express. We always recommend having plants sent by express, where there are many ordered, and when there is an express office near, as we can usually send much larger plants, and do not have to wash the soil off the roots, as is the case when sent by mail. We are now using a light but strong corrugated box, which lessens the weight of a shipment, thereby reducing the charges. Plants packed in this manner will carry nicely for a great distance and keep for a week or ten days in a fresh condition. Purchaser pays charges.

Low Plant Express Rate. By special arrangements with the Express Companies all plants are carried at a reduction of 20 per cent. from the regular merchandise rate.

Plants by Mail. When plants are ordered by mail we prepay postage, delivering the plants free of all expense to any postoffice in the United States. Orders for plants amounting to less than 25 cents must be accompanied by 5 cents extra for postage.

Canada Customers. In ordering plants sent to Canada, please send 10 cents extra with each \$1.00 worth ordered, as the postage rate on plants to Canada is double that in the United States.

Our Terms are Cash with the Order. No order sent C. O. D. unless a remittance of one-fourth of the amount of the order be made to guarantee the acceptance.

How to Remit—Postoffice Orders. The safest and most convenient way of transmitting money from one point to another is by means of postoffice orders; if these are lost a duplicate can easily be obtained, and there is no danger of their being stolen, for no one can obtain money on them except the person to whom they are addressed. They can be obtained at most postoffices, but not all. The fee is but 5 cents for \$5.00 and under.

Express Money Orders. If more convenient, money can be sent in this way with perfect safety, as in case the letter is lost a duplicate can be obtained if you are careful to keep your receipt.

Bank Drafts. These should be drawn on New York City, and made payable to the order of The McGregor Brothers Co.

We will be responsible for money sent by any of the above methods.

Loose Money enclosed in a letter is at the risk of the sender.

Individual checks cannot be received, unless 15 cents is added for collection. Your banker will give you a draft for your check without charge.

Neither can we accept Canada or Mexican silver or paper money.

Postage Stamps. These can be sent for fractional parts of one dollar or where postoffice order cannot be had, provided a two cent stamp extra is sent with every remittance. None but stamps in perfect order will be accepted.

Kindly keep a copy of your order to compare with plants received.

References. If you have any fears that we will not perform what we promise, we refer you to the First National Bank of this city or to the Postmaster.

Address all Letters and make drafts, money orders, etc., payable to

ROSES

On the following pages we have a select list of the new and best Roses, commencing with what we believe, according to their merits, to be the cream of the new.

The Rose which has been well named the "Queen of Flowers," always has ranked first among the many families of plants we grow. We are now devoting half of our entire space to supply the wholesale and retail demand for this generally loved and appreciated flower. Springfield is well known as a center for the Rose, and is now growing and distributing more than any other city in the United States.

BESSIE BROWN.

GLADYS HARKNESS

A new Hybrid Tea Rose of vigorous and erect growth similar to that of American Beauty. It is half hardy and will stand the northern winters if protected by litter or evergreen boughs. Blooms very profusely, flowers large, formed like a large hardy Rose; color deep salmon pink, a shade that has always been wanting in Roses. It has a splendid constitution, lasting well when cut, and is very fragrant. We predict its sale to be very large. Price, 20 cents; two-year-old, 40 cents.

LADY CLANMORRIS

Another Hybrid Tea, perfectly distinct from any other offered. A splendid Rose, of very robust growth and free branching habit, flowering continuously and freely throughout the season. Blooms very large and of good form; petals large, smooth and of great substance; color creamy white with delicate salmon center, edge of petals margined with pink. This is one of the finest of the new Roses. Price, 20 cents each; two-year-old, 40 cents.

MRS. MAWLEY

An excellent bedding variety, with large full flowers of fine form, of bright pink, shaded salmon; long, plump buds on very long growths. A fine garden Rose, of magnificent size and build, free in growth. Price, 15 cents each; two-year-old plants, 40 cents each.

NEW ROSE BESSIE BROWN

This new Rose is considered one of the finest of the Roses of late introduction, and is well worthy the place it occupies among Roses. It is of the Hybrid Tea class and will stand frost if slightly protected. Blooms are of enormous size, of heavy substance and are perfect in shape, lasting splendidly when cut. The color is snow white, faintly flushed and tinged with pink. A fine, strong, free grower, producing long stems, well clothed in foliage quite up to the flower. Price, 20 cents; two-year-old, 40 cents.

LADY MARY CORRY

This new Rose is exceptionally fine for out door bedding. Growth vigorous and of erect, branching habit. A beautiful Rose of the most exquisite color, which is a deep, golden yellow. Blooms of good size, freely produced and perfectly formed. A very fine variety to add to the much wanted yellow varieties. Price, 20 cents; two-year-old, 40 cents.

LADY BATTERSEA

This new Rose is considered by many Rose fanciers to be the finest variety of 1902 introduction. It belongs to the new British Roses and has received many honors at the English exhibitions. It has long oval buds, sharply pointed, very striking in form; the color is bright cherry crimson; the stems are stiff and extremely long for a red Rose; a vigorous grower, not very full, but an unusually showy variety. The only Rose approaching Niphetos in form. Lady Battersea belongs to the Hybrid Tea class, and if protected with evergreen boughs or straw, it can be left in the ground all winter without danger. Do not omit this valuable Rose from your list. Price, 25 cents each; two-year-old plants, 50 cents.

HELEN GOULD

(Hybrid Tea.) We believe this one of the best hardy ever-blooming Roses ever introduced. The color is unique, a very soft intense carmine crimson with deeper shades in the depth of the petals; in color much like American Beauty. The profusion of its bloom is truly marvelous, every shoot producing a flower. A grand addition to our list of red Roses and equally valuable for winter forcing or summer bedding. Price, 15 cents each; two-year-old plants, 30 cents each.

New Bedding Rose,

GRUSS AN TEPLITZ

It is a Rose for everybody, succeeding under the most ordinary conditions, and will take rank with such old-time favorites as Hermosa, Souv. de la Malmaison, Clothilde Soupert, etc. In color it is rich scarlet, shading to velvety crimson; of larger size than Hermosa; very fragrant; a free, strong grower, and the most profuse bloomer known to us, the mass of color produced being truly phenomenal, and the foliage is extremely beautiful, all the younger growth being of a bronzy plum color. Price, 15 cents each; two-year-old plants, 30 cents each.

New Tea Rose,

ENCHANTRESS

This is beyond question one of the best of recent European introductions. We have given it a trial, and find it to be of unusual merit. It blooms with astonishing freedom, bearing its large, globular flowers in immense clusters; it is as free blooming as any Rose in our collection. The color is creamy-white, slightly tinged with buff in the center; vigorous growth; fine foliage and highly valuable both in pots for late autumn and winter blooming as well as for general planting in the open ground during summer. Price, 10 cents each; large two-year-old plants, 30 cents each.

SPECIAL OFFER.—One each of the above new Roses for \$1.25.

ROSES--Continued

New Crimson Rose, DR. CAZENEUVE

Its color is a warm, rich crimson and surpasses its rival, the well known Metecr, which is the nearest Rose to its color, but darker. An inspection of the growing plants satisfies us as to its vigor and vitality. It has every evidence, too, of being a continuous bloomer. In habit the plant is erect growing, making good wood of considerable length and rigidity, and displaying a strong inclination to make a compact bush. The foliage is of moderate size, with seven roundish leaflets, very shapely and evenly serrate on the margins. Price, strong plants, 25 cents each; large two-year-old plants, 50 cents each.

PRINCE OF BULGARIA

A new Rose which has taken first prizes at the recent exhibitions. It is very much like the superb Carnot in form of bud and growth, and belongs to the class of hardy ever-bloomers. A very vigorous grower, with large, bright green foliage, beautiful in form of bud; flower very large and full; outer petal extremely large; color a rosy flesh. A variety that will be very popular as soon as known. Price, 25 cents each; two-year-old plants, 50 cents each.

ALLIANCE FRANCO-RUSSE

One of the startling new Roses of recent date. Flowers bright yellow shading to salmon at the center; bright and pleasing; has a strong, upright stem and long bud. The growth is vigorous and hardy, good foliage, showing a fine constitution. A very free and continuous bloomer. Price, 20 cents each; two-year-old plants, 40 cents each.

MRS. E. DURANTH

This Rose is very beautiful, its strong branching habit being admirable; each side shoot brings a perfect flower on a stiff stem; never shows a weak neck. The upper surface of each petal is shell pink, the reverse soft rose; very free and fragrant. A good Rose for your collection. Price 20 cents each; two-year-old plants, 40 cents each.

TERREL DES CHENES

A lovely bedding variety of the "Tulip" type. Its combination of color makes it one that will surely please. Color, creamy white, edged and laced with soft pink. The flowers are large, very full and highly perfumed. The rich, unique coloring is one of its marked characteristics and stamps it with a distinctive charm. Price, 20 cents each; two-year-old plants, 40 cents.

CLIMBING SOUPERT

This is a climbing form of that grand variety, Clothilde Soupert. The flowers and foliage are identical with that variety, differing in that the growth is a rampant climber, as free in bloom as its parent. This makes grand plants to grow in the field, and prune or train into bush form for Spring flowering; much superior to the parent variety. Color, ivory white deepening to a rosy blush in the center. A hardy and profuse bloomer. Price, 20 cents each; two-year-old plants, 35 cents each.

The Superb New Tea Rose,

"ANTOINE RIVOIRE"

A handsome new Rose of vigorous habit of growth, with large, full, Camellia-shaped flowers. Color rosy flesh on a yellow ground, shaded with a border of carmine. Flowers have been exhibited five inches in diameter. A remarkable variety of great worth. Price, 15 cents each; large two-year-old plants, 40 cents each.

MADAME HONORE DEFRESNE

A valuable and exceedingly beautiful variety, flowers a clear golden-yellow, very large, full and sweet, buds long and pointed, opens well. First-class in every way. Probably the richest yellow Rose ever grown. Price, 10 cents each; large two-year-old plants, 35 cents each.

DR. CAZENEUVE.

The Beautiful New Hybrid Tea Rose, PRESIDENT CARNOT

It is a Rose of the largest size, beautiful both in bud and open flower. The buds come on long, stiff stems. The color is distinct and novel, a lovely fawn, shading to pearl. It often measures five to six inches in diameter. It is so handsome and distinct that it attracts immediate attention. It is, indeed, a wonderful Rose, one that everybody can grow and bloom. Price, fine young strong plants, 15 cents each; fine two-year-old plants, 40 cents each.

New Rose

MRS. ROBERT GARRETT

The size is enormous; indeed, the flowers are larger than any Tea Rose we have ever seen, while the form, both in bud and full blown flower, is most artistic and beautiful. The buds are unusually long and pointed; the open flowers full and double. The color is a pleasing soft pink, a little deeper than Daybreak Carnation, totally distinct and unlike anything yet seen in Roses. It is a strong, vigorous grower, producing its flowers on long, stiff stems. Price, 15 cents each; large two-year-old plants, 40 cents each.

CLARA WATSON

A free-blooming Tea Rose of English origin with many distinct features. The flowers are very graceful, resembling Bridesmaid in form, and are produced in remarkable profusion. For freedom of bloom this variety is specially valuable. The buds are very beautiful, and are supported on long stems, making it desirable for cutting. The color is salmon-pink, very difficult to describe. Will take a place among the best Roses. Price, 10 cents each; large two-year-old plants, 35 cents each.

**SPECIAL OFFER—We will send one each
of this page of new Roses for \$1.50.**

SUNRISE

The New Forcing Rose.

Sunrise has taken first honors wherever shown, and this year will be grown quite extensively for the cut-flower market. In close bud form it shows a deep coppery-pink, but as the flower opens the inner side of the petals shade from a clear yellow to a deep copper, making a very pretty color effect.

The fragrance is delightful, much the same as the old Rose Bon Silene. The young foliage comes a copper-bronze, and as it grows older changes to a deep green. This Rose has a good future, having been thoroughly tested, and all the qualities that make a good Rose are in the "Sunrise." Price, 15 cents each; 2-year-old, 40 cents.

THE WHITE SPORT OF GOLDEN GATE,

"IVORY"

We are pleased to offer a most valuable addition to our list of Roses for cut flower purposes. A "sport" from the fine old variety Golden Gate, which today is probably the freest flowering Rose of its type in cultivation, but which unfortunately lacks in decided color. "Ivory" embodies all the good points of its parent, size, freedom of bloom, strong, vigorous, healthy growth with a pure white color, which makes it an invaluable acquisition to the list of forcing Roses. It has received highest honors wherever shown. Price, 20 cents each; 2-year-old, 40 cents.

MURIEL GRAHAM

This superb Rose is from that favorite variety Catherine Mermet, and is perfectly distinct in color from anything extant, which is a pale cream, faintly blushed rose. The habit of growth is similar to its parent. Sent out by Alexander & Sons, Belfast, Ireland, who consider it one of their best introductions. Well worth our best recommendation. Price, 10 cents each; 2-year-old, 30 cents.

SUNRISE.

The Beautiful New

WHITE TEA ROSE

White Maman Cochet.

The finest Rose of the year; like its parent the growth is vigorous with rich, healthy foliage, producing large fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet and all who have tried it pronounce it the finest bedding Tea Rose in existence. We would advise all who love choice roses to plant at least one of this beautiful new Rose. Price, 15 cents each; two-year-old plants, 30 cents each.

Madame Abel Chatenay, Forcing Rose

This is a wonderfully strong, healthy growing variety, with rich, bright foliage. A grand bedding Rose, as it is a profuse and continuous bloomer. Flowers large and full, petals recurved and of a beautiful creamy-rose, shaded with rose-vermilion and tinged with salmon; the base of the petals is very highly colored, being a combination of the foregoing shades, strongly accentuated. This will undoubtedly make a fine garden rose, because of its substance and hardiness. Price, 10 cents each; two-year plants, 30 cents each.

The Burbank Rose, A Hardy Ever-Blooming Rose

The flowers are double, of fine form, nearly three inches across. The color is a deep rose-pink, shading to beautiful soft rose at the center. The petals are well incurved so that the center is hidden. In September and October the outer petals change to a deep, rich carmine. The whole flower is most pleasing in its rich, graceful beauty, and is delightfully fragrant. Price, 10 cents each; large two-year-old plants, 30 cents each.

Hybrid Tea Rose, Madame Schwallier

The color is a bright rosy-flesh, paler at the base of the petals and deepening on the edges. Apt to come in clusters, which are excellent for cutting. A Rose from which we hear very flattering reports from all directions. This grand Rose has more perfume than any that we offer. Try it. It is magnificent. Price, 10 cents each; large two-year-old plants, 25 cents each.

WHITE MAMAN COCHET.

ROSES--Continued.

Do not overlook this class of Tea Roses, for they are ones that are admired by all for their Rapid Growth and Fine Flowers.

New Climbing Rose, MRS. ROBT. PEARY, or Climbing Kaiserin Augusta Victoria

This is by all odds the most remarkable new Rose of recent introduction. It is an offspring of that grand variety, Kaiserin Augusta Victoria. The flowers are extra large, full, deep and double. They are of excellent substance, and produced on long, stiff stems, like a forcing Rose.

The buds are long and pointed, a remarkable feature not found in any other climbing Rose. The color and shape of the bud and flower are identical with Kaiserin Augusta Victoria. Pure ivory-white. The foliage is also identical. The fragrance is delicious. Price, 15 cents; two-year-old, 30 cents.

Climbing Bridesmaid

Bridesmaid, the parent of this new climber, is the standard pink cut flower Rose of America. It represents the highest degree of beauty yet attained in Roses of its class. When we first offered this new variety as a sport from Bridesmaid its popularity was assured. It grows rapidly and strongly and blooms as freely as does its parent. The flowers are simply beautiful, clear pink. This is one of the most valuable additions to the climbing Tea Roses made in recent years. Price, 15 cents; two-year-old, 30 cents.

A Glorious New Rose, Climbing Marie Guillot

If you have never seen Marie Guillot growing at its best in the open ground, you cannot conceive of the beauty of its large, bold, handsome white flowers. It has been termed the Queen of White Roses, and while there are many white varieties of unquestionable excellence, there are none more reliable for outdoor cultivation than Marie Guillot. It is one of the most rapid growing and vigorous Climbing Roses we have ever seen. It blooms continuously throughout the season, the first and every year. The flowers are magnificently made, extra large, deep and double. The buds are particularly beautiful and the fragrance delightful. Price, 15 cents each; two-year, 30 cents.

Climbing Perle Des Jardins

Few Roses have as firm a hold in popular favor and are so highly prized by the professional and amateur Rose growers alike as the Perle des Jardins. It is not only admirably adapted for forcing, but thrives well in the open air, blooming freely in either case. Its large, full, well-formed, golden-yellow flowers, borne on stiff stems, makes this variety especially desirable for bouquets and artistic floral decorations, while the dark and glaucous foliage of the plant furnishes an excellent setting for the fragrant, delicate hued blossoms. Hardy south. Price, 15 cents; two-year, 30 cents.

A NEW DEPARTURE

Under pages 70 to 80 we have listed the best of all the hardy plants and shrubs which are now taking the place of many of the tender plants. A hardy plant gives you flowers from year to year, with the least amount of trouble.

CLIMBING KAISERIN.

CLIMBING METEOR

All who know "General Jack" will call to mind its beautiful, high colored, rich, velvety-red buds and flowers. Climbing Meteor is the acme of all red Climbing Roses. It is a free, persistent bloomer and will make a growth of from ten to fifteen feet in a season; in bloom all the time, as it is a true ever-bloomer. We do not hesitate to place it at the head of the list of all Roses for summer blooming, as it will make a strong growth and literally loaded with its deep, rich, red flowers all the time. Its flowers are much larger than Meteor and are richer in color. Price, 15 cents each; two-year, 30 cents.

CLIMBING WOOTEN

Though not one of the newest Roses, yet the trade is just finding out the wonderfully good qualities of this Rose. It is superior to Souv. de Wooten, its parent, in that the stems are much longer and the growth is more rapid. The color is identical with its parent, a deep velvety crimson. It will live through the coldest winters with but slight protection. A Rose that every florist should add to their collection. Price, 15 cents each; two-year, 30 cents.

"The Forcing Set"

This collection of Roses are ones that are known by the trade as forcing Roses or the varieties that are grown by florists to cut from, for weddings, receptions, etc. So it is natural to suppose that they are of the best varieties, producing the finest flowers and the easiest cared for.

The Beautiful Ever-Blooming

MAMAN COCHET

It is a vigorous grower with beautiful foliage. In bud it resembles the Mermet family, being long and shapely, borne on long, stiff stems. You can get an idea of the exquisite flower from the engraving. It is of the largest size, and, as you will notice, the flower is built up or rounded, and very double. The color is a deep rose-pink, the inner side of the petals being a silver-rose, shading and touched with golden-yellow. We pronounce this the finest Rose by far that has been introduced from France in the past five years. Price, 15 cents each; large two-year-old plants, 35 cents each.

New Ever-Blooming Rose,

GOLDEN GATE

There are so many beautiful Roses, and they are beautiful in so many different ways, that it scarcely seems possible for any one variety to be the most beautiful of all Roses; and yet if the question were to be decided, we are strongly of the belief that the palm would have to be awarded to the new Tea Rose, Golden Gate. This magnificent Rose is the result of a cross between those old and greatly admired varieties, Safrano and Cornelia Cook, and while combining the good qualities of both, is vastly more beautiful than either. The flowers are extra large, very full and finely formed, and of excellent substance; the buds are long and of the most desirable form; the color is a rich creamy-white, beautifully tinged with fine golden-yellow. The petals are large and broad, and exquisitely bordered and tinted with clear rose, making altogether a Rose of the rarest and most indescribable beauty. Price, 15 cents each; large two-year-old plants, 35 cents each.

The Grandest of all, THE METEOR

A velvety-red ever-bloomer of the deepest glowing crimson; as fine as a Hybrid. Flowers of medium size, very double and slightly recurving. A beautiful open Rose, a free bloomer and a very excellent pot Rose. It has no tinge of violet or purple to mar its beauty. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. This is unquestionably the best dark velvety-red Rose yet produced. Grand, both in bud and flower. Price, 10 cents each; large two-year-old plants, 35 cents each.

White Tea Rose, THE BRIDE

This is decidedly the most beautiful white Tea Rose. It is a sport from Catherine Mermet, with which it is identical in growth and shape of flowers. The flowers are very large and double, on long, stiff stems, of fine texture and substance, and last a long time in a fresh state after being cut, making it one of the best varieties for corsage wear or bouquets. During extreme hot weather it becomes a pinkish-white, at other times a beautiful pure white. Price, 10 cents each; large plants, 25 cents each.

The Fine Pink Tea Rose, CATHERINE MERMET

One of the finest Roses grown. Its name is the synonym for all that is delicate and beautiful. Its buds are inimitable, faultless in form and charming in their every shade of color, from the purest silvery-rose to the exquisite combining of yellow and rose, which illumines the base of the petals. It is, beyond doubt, the Rose of all Roses, and you should not fail to have a Mermet in your collection. Price, 10 cents each; two-year-old plants, 25 cents each.

MAMAN COCHET.

The Beautiful Yellow Tea Rose,

PEARL OF THE GARDEN

Perle des Jardins. The one Tea Rose which you cannot possibly do without. It has absolutely no weak point, but it is a perfect and popular Rose. The color is faultless, whether the waxy petals show the rich cream tint of cool weather, or take richer golden shades which a warmer sun gives them. The form of the bud is rich, rounded and luxuriant. It is only equaled in beauty by the open Rose, which is full to the center and large. It is no shy, creeping plant, but is fairly riotous in growth, sending out quantities of beautiful foliage, thick, glossy and dark, every branch being topped with the dark reddish-maroon of the young shoots, and bearing its buds high above the leaves. Price, 15 cents each; large plants, 35 cents each.

WHITE TEA ROSE, White Maman Cochet

The finest Rose of the year; like its parent the growth is vigorous with rich, healthy foliage, producing large fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet, and all who have tried it pronounce it the finest bedding Tea Rose in existence. We would advise all who love choice Roses to plant at least one of this beautiful new Rose. Price, 15 cents each; two-year-old plants, 30 cents each.

Tea Rose, SUNSET

A grand variety. The flowers are of large size, fine, full form, very double and deliciously perfumed; the color is a remarkable shade of rich golden-amber, elegantly tinged and shaded with dark, ruddy-copper. Intensely beautiful and resembling in color a splendid "Afterglow." It is a constant and profuse bloomer. Price, 15 cents each; large, fine two-year plants, 40 cents each.

New Tea Rose, BRIDESMAID

Here we have a new Rose, a sport from that old stand-by, Catherine Mermet. All know that Catherine Mermet takes precedence as a pink Rose. More plants of it are cultivated by the amateur, and more cut bloom is sold by the flower dealer than any pink Rose. Why? Because the bud is of exquisite shape and contour, so solid and firm, and the stems are so long and stiff that no other Rose will compare with it in keeping qualities after being cut. It is about two shades deeper in color—just enough to make it bright; and it is the same color all the time under every condition of weather and surroundings. Price, 10 cents each; large two-year-old plants, 30 cents each.

The full set of "Forcing Roses," One-year-old, 90 cts. Two-year-old, \$2.25

The Beautiful White Marechal Niel

The fame of Marechal Niel, with its large, deep, golden-yellow flowers, is so world-wide that nothing further need be said of this new variety to make it instantly popular than that it is the exact counterpart in every respect of Marechal Niel, its parent, save the color of flower, which is pure white; totally distinct. We have seen Marechal Niel growing to perfection here in the north, surviving the severest winters, but it is less hardy than the average Climbing Tea or Noisette. In the south it will be grand—just as good as Marechal Niel. If carefully protected in the north it will also prove itself a magnificent Rose. For house or greenhouse culture it ranks among the first. As a companion plant to Marechal Niel we anticipate a splendid demand for it. Price, 15 cents each; large two-year-old plants, 40 cents each.

The Superb Yellow Marechal Niel

A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over; they illustrate the globular form in its last perfection, and are almost massive in dimensions. The reports from Southern growers tell of single plants showing one and two thousand blooms of Marechal Niel at a time. It is almost universally held to be the finest climber for indoors or out, where the climate admits of its cultivation. This is one of the Roses that starts rather slowly, and for that reason the best success will be had with the plants priced 35 cents; Price, nice, well-established plants, 15 cents each; large, fine two-year-old plants, 35 cents each. We have limited quantity of special size at 50 cents.

The Wonderful Red Marechal Niel

For years we have had the much-admired and ever-popular Yellow Marechal Niel, and recently to it was added the White Marechal Niel. But now, to cap the climax, that famous German Rosarian, Peter Lambert, has brought out the Red Marechal Niel, a fitting companion to the other two and completing a most desirable trio. The Red Marechal Niel is the result of a cross between the ever-gorgeous Gen. Jacqueminot and the Yellow Marechal Niel. Flowers are large, well-shaped, full, and of the form of Yellow Marechal Niel in the bud and open flower; color carmine red, shading to pink; fragrance delightful. Very strong grower, though not so rampant as the Yellow Marechal Niel. Price, 15 cents each; large two-year-old plants, 40 cents each.

SPECIAL OFFER. The Famous Trio, the White, Yellow and Red Marechal Niel, nice plants, 35c.; fine large 2-yr. old plants, \$1.

SOUPERT.

The Four "Tulip Roses" for 40 Cents.**The Great Tulip Rose of Europe,
the Beautiful Madame de Watteville**

The color is a remarkable shade of creamy yellow, richly covered with rosy blush. The petals are large and each one widely bordered with bright crimson, which gives it a very striking and beautiful appearance. The flowers are large, very full, and highly perfumed. This is the Tulip Rose, so called because of the feathery shading of bright rose around the edge of every petal, the body of the petal being creamy-white and of heavy texture. Price, 10 cents each; large two-year-old, 30 cents each.

The Lovely Tulip Rose,**J. B. VARRONE**

Superb elongated buds and extra large vase-shaped blooms. Color an intensely scarlet-crimson, very rich and bright, beautifully shaded with salmon-yellow or buff-rose at center. Very beautiful and sweet. Price, 15 cents each; large two-year-old plants, 30 cents each.

The Charming Tulip Rose,**MADAME ELI LAMBERT**

This is a superb, rich, new Rose, carrying such fine combinations of color that it is sure to please. It belongs to the Tulip class, salmon-pink, with the center of coppery-rose, elegantly edged darker. The petals are so thick and velvety-like as to hardly resemble a Rose. Price, 10 cents each; large two-year-old plants, 5 cents each.

New Tea Rose, MAD. PIERRE GUILLOT

The most attractive and showy Tea Rose of recent introduction. It throws up numerous strong shoots, terminating in buds that for beauty surpass many famous Roses. The buds are large, very double, creamy-white, each petal heavily bordered with bright rose. As a cut flower, the color holds well, seems to be more intense under gaslight, the white and lemon, the rosy margin a red tint. The Rose will have a large sale, and it will always stand near the head, if not at the head, of its class. We advise you to try it. Price, 15 cents each; large two-year-old plants, 30 cents each.

**The Great "SOUPERT"
Collection of Roses****The New Rose, CLIMBING SOUPERT**

This is a climbing form of the grand variety, Clothilde Soupert. The flowers and foliage are identical with that variety, differing in that the growth is a rampant climber, as free in bloom as its parent. This makes grand plants to grow in the field, and prune or train into bush form for spring flowering, much superior to the parent variety. Color ivory-white, deepening to a rosy-blush in the center. Price, 20 cents; two-year, 35 cents.

Yellow Soupert, or Mosella

Is another novelty that has been wanted for some years. Who does not know the beautiful Clothilde Soupert, the splendid bedding Rose? Mosella is a stronger grower, flowers are a little larger than the Clothilde Soupert, but appears the same way in clusters and on single stems; the color is chrome yellow in the center, getting creamy white on the edges of the petals; it will make a great bedder and perfectly hardy. Price, 15 cents each; two-year-old plants, 35 cents each.

The Beautiful New PINK SOUPERT

This bright new Rose is a very free flowering variety, much resembling Hermosa, but more double and flowering more freely; it shows the Polyantha blood in the full cluster of bloom, and it will make a handsome contrast, bedded or grown with the C. Soupert. The flowers are not quite so large, full and handsome as our original Soupert, but fill a place because of their brightness and freedom. The habit of the plant is almost identical with C. Soupert. Price, 15 cents each; two-year-old plants, 35 cents each.

White Soupert, or Leonie Osterrieth

We have given this Rose an extended trial, and believe there is no better white Rose grown. The buds are of a good size, the flower full and double, and deliciously fragrant, pure porcelain white, with deep center. In freedom of bloom this charming variety rivals the Polyanthus. Price, 15 cents each; two-year-old plants, 35 cents each.

The Famous Hardy Ever-Bloomer,**CLOTHILDE SOUPERT**

This Rose originated with Messrs. Soupert & Notting, of Luxembourg, Belgium. It is a strong, vigorous grower. The flowers are large, double and beautiful in form, with style of the beautiful Rose "Ball of Snow." The flowers are borne in sprays, and the color blends from a soft shell-pink to a pure satiny-white. Roses with both these colors are borne on the same plant at the same time. No other Rose approaches it in flowering qualities. Price, 10 cents each; large plants, 30 cents each.

The Soupert Roses are exceptionally fine for bedding, growing very vigorously and blooming very freely. We offer one each, one year old, including the new Climbing Soupert, for 60 cents, or two-year-old for \$1.30.

THE GREAT SOUTHERN ROSE MADAME LAMBARD

This variety is planted in the south as much as any Rose on the market. A first-class Rose for garden planting or pot culture, habit of growth is vigorous and blooming quality very free. NEW TEA ROSE, CHAS. LEGRADY

Magnificent large buds and flowers of great beauty. Color a fine chamois-red, richly shaded with darkest crimson. This rich, unique coloring is one of its marked characteristics, and stamps it with a distinctive charm. The outer petals are grandly recurved, forming an excellent contrast to the Camellia-like inner petals. Price, 10 cents each; large two-year-old plants, 25 cents each.

REINE MARIE HENRIETTE

The great New Orleans Rose, but does equally as well in the north where with a little protection it will stand the cold winters. An excellent crimson flowered ever-blooming climber. The flowers are prettily formed, very full and double, delightfully tea scented, strong growing and very free flowering. Price, 10 cents each; two-year-old plants, 30 cents each.

New Tea Rose, MADEMOISELLE FRANCISKA KRUGER

The striking color of this handsome Rose places it at once in the front as a bud producer in the open air. In its shadings of deep coppery-yellow it stands unique and distinct from all others. The flower, when open, is of good size and very symmetrical. Price, 10 cents each; large plants, 25 cents each.

The Beautiful Yellow Tea Rose, STAR OF LYON

(Etoile de Lyon.)

This magnificent Tea Rose is a rich golden-yellow, a strong, healthy and vigorous grower, immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet. Surely one of the best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy, both as to heat and cold. Price, 10 cents each; large two-year-old plants, 30 cents each.

MARIE VAN HOUTTE

Of a fine, faultless, straw-yellow color, with the outer petals washed and outlined with a bright rosy-crimson; occasionally the whole flower will be suffused with light pink. It grows vigorously, blooms profusely, and is most deliciously scented. Price, 10 cents each; large plants, 25 cents each.

The "Great Southern" Roses. One-year-old, 50c. Two-year-old, \$1.50.

The Four La France Roses, The Rose for California and the South

PINK AND RED LA FRANCE.

The Beautiful New Rose, CROWN PRINCESS VICTORIA, OR WHITE MALMAISON

This Rose is a vigorous grower, with large, fine foliage, and is one of the loveliest of all Roses. The color is a pure waxy snow-white, the center of the flower has a lemon tint, just enough to light up and brighten it, and to those who desire a fine double flower when fully expanded, this will meet your wants, as it is very beautiful when full blown. Certainly a grand acquisition. Resembles that grand old Rose, "Malmaison" in shape and fullness. We doubt very much if there is a finer Rose grown than this one. It is grand in every respect. We have tested it fully for five years, and each year only confirms our high esteem for it. The best white Rose we have to offer you. Price, 15 cents each; large two-year-old plants, 30 cents each.

The Grand Old Rose, SOUVENIR DE LA MALMAISON

This grand old variety, when used as a bedding Rose in summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, double to the center, are produced in abundance, and have the requisite form and substance to withstand our hot, dry summers. Exquisitely fragrant. A noble Rose. Price, 10 cents each; large two-year-old plants, 30 cents each.

PINK LA FRANCE

We have always given this the first place—the Queen of Roses. Accounts come to us from all quarters every year describing the great profusion of its bloom from June until frost, and extolling its fragrance and immense size. It is of superb form, and double as a Rose can be. No variety can surpass it in delicate coloring—silvery-rose shades, with pink. It has a satin sheen over all its petals. It is most universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored and fragrant in the highest degree. Price, 15 cents each; large two-year plants, 35 cents.

THE RED LA FRANCE

(Or Duchess of Albany.)

We have no hesitancy in saying to our customers that this Rose stands at the head of all Roses, not excepting La France. What we wish to impress is the fact that as a Rose for all purposes it has no peer. It is identical with La France, excepting in three points. Those are: A more vigorous growth, a larger and more expanded flower, and a deep, even pink in color; not shaded, but what is called a solid color. Price, 15 cents each; large size, 35 cents each.

WHITE LA FRANCE

(Augustine Guinnoiseau.)

Here we have a beauty indeed, one we recommend to all, whether for out-door culture or for pots in the house in winter. If you were to ask us to select six of the very finest Roses for you, we should be sure to include it in the six. Do you know La France? If so, you know this elegant new Rose. It is identical with La France, except the color. It is pearly-white, sometimes tinted with fawn. We predict for it far more popularity than La France ever attained. Don't fail to get this new Rose. Price, 15 cents each; large size, 35 cents each.

STRIPED LA FRANCE

(Madame Angelique Veysset.)

Everybody knows the beautiful La France—a Rose that has always had such a ready sale that the demand has never been fully met. Striped La France combines all the good qualities of La France in growth, fragrance, shape of bud and flower; in fact, differs from it only in two points: First, it is freer in bloom than the parent; second, it is nicely striped, the markings being plain and distinct, the variegation a beautiful bright rose on a satin-pink ground. Price, 15 cents each; large size, 35 cents each.

SPECIAL OFFER—One each of the above

New Tea Rose,

KAISERIN AUGUSTA VICTORIA

This beautiful Rose has not only a royal name, but it is a royal Rose as well. We have white Roses that have elegant buds, but when full blown are not all that is desired. Then again, we have white Roses that are elegant when full blown, but have poor buds. This Rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open; color pure creamy-white. It far surpasses any other white Rose in all particulars, and has a much richer perfume. Price, 15 cents each; large two-year-old plants, 35 cents each.

THE "OLD FAVORITES"

One of each, including American Beauty, 60c.

HERMOSA

Everybody knows this famous variety. As hardy as an oak, and always covered with its elegant clear pink blooms. There is not a shade of color of any kind to mar its purity. We doubt if any Rose ever grown will take its place. Price, 15 cents each; large two-year-old plants, 30 cents each.

MARECHAL NIEL

A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over; they illustrate the globular form in its last perfection, and are almost massive in dimensions. The reports from southern growers tell of single plants showing one and two thousand blooms of Marechal Niel at a time. The best success will be had with the plants priced 35 cents. Price, nice, well-established plants, 10 cents; large, fine two-year-old plants, 35 cents.

BON SILENE

Still a prime favorite, on account of its delightful fragrance and strong growing qualities; color, deep rose, shaded carmine. Valuable for summer or winter flowers. Price, 10 cents each; two-year-old plants, 25 cents each.

MARIE GUILLOT

This beautiful Tea Rose continues in popular favor and still maintains its position as one of the best white Roses of its class. Flowers of an unusual style, entirely double to the center; very sweet-scented. Habit of growth the best. Price, 10 cents each; large two-year plants, 25 cents each.

The Queen of Roses, American Beauty

This Rose has become as famous as the Marechal Niel. The flowers of this grand Rose are so eagerly sought that they sell in the flower stores of the larger cities during the holiday season at the extravagant price of from \$1.50 to \$2.00 for a single bud or flower. Indeed, the market is never fully supplied with them, even at this high price. Why is this? There must be a reason. It is because of its large size, rich color and delicious fragrance. It is a hardy Rose, of the largest size, having the ever-blooming qualities of the Tea Rose, with the delicious odor of the Damask, or Moss Rose. It is the sweetest of all Roses. In color it is a deep, brilliant red, shading to a rich carmine-crimson. It is entirely hardy, and is a valuable Rose for the garden or in-door culture, flowering freely during the winter. American Beauty is like Marechal Niel—difficult to start from small plants; therefore, we advise our customers to buy strong plants of it. This Rose will never be sold cheaply, for the reason it is hard to propagate. It can only be rooted with success during winter. Price, medium two-year-old plants, 35 cents each; fine, large two-year-old plants, 50 cents each.

A Page of Crimson Beauties in Roses

CHRISTINE DE NOUE.

New Crimson Tea Rose, CHRISTINE DE NOUE

It is highly recommended as a valuable and in every way desirable Rose for general planting. Price, 15 cents each; large two-year-old plants, 40 cents each.

PERNET'S TRIUMPH

The flowers are extra large, having broad, thick petals, and long, tapering buds, with delicious Tea fragrance. Color a fine, clear magenta-red, sometimes passing to a bright crimson. Very striking and beautiful, and of such good substance that the flowers retain their beauty for a long time. Price, 15 cents each; large two-year-old plants, 35 cents.

The beautiful new Crimson Bedding Rose, MARION DINGEE

This grand new Rose was raised from one of the beautiful Countess de Cassena with Duchess of Edinburgh. It is a deep brilliant crimson, the darkest, if not the very darkest and best colored Tea Rose in existence. Price, 15 cents each; two-year-old plants, 35 cents each.

SOUVENIR DE WOOTON

An American variety of great promise, with the following good qualities: (1) Color velvety-red, equal to Jacqueminot; (2) petals which cannot be excelled; (3) continuous flowering qualities; (4) the most prolific bloomer in existence, every shoot containing a flower bud; (5) habit exceedingly vigorous, and in foliage quite equal to the American Beauty; (6) it never makes imperfect buds, and dark weather but deepens the color, giving it a richer shade of crimson; (7) it is a full double Rose, and is good in bud, half open, or fully expanded. Full open flowers frequently are six inches in diameter. Price, 15 cents each; large plants, 35 cents each.

The Grandest of All, THE METEOR

A beautiful open Rose, a free bloomer and a very excellent pot Rose. It has no tinge of violet or purple to mar its beauty. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. This is unquestionably the best dark velvety-red Rose yet produced. Grand, both in bud and flower. Price, 15 cents each; large two-year-old plants, 35 cents each.

New Red Tea Rose, PRINCESS HOHENZOLLERN

A very strong, vigorous grower, with beautiful foliage, dark and large; flowers very large, more than semi-double, of perfect form, often produced in clusters. Color a bright, deep satiny-red, with lighter center. Price, 15 cents each; large plants, 30 cents each.

The Beautiful New Crimson Bedding Rose PRINCESS SAGAN

The flowers of this variety are the richest crimson of any Rose in our collection, a single bud or blossom will catch the eye at a great distance, so brilliant is the color. Indeed, it is unmatched in its velvety richness; could well be termed "The Velvet Rose." It is as free in blooming as Bon Silene. One of our customers in California writes that she is kept busy by people asking what Rose this is. Price, 15 cents each; large two-year-old plants, 40 cents each.

Fine Crimson Tea Rose, PAPA GONTIER

A grand red Tea, of fine crimson shade and silken texture (as distinct from velvety texture). The bud is fine size and graceful form, and you would never suspect from it that the Rose is only semi-double. Extremely free, both in growth and bloom. Very long and beautifully leaved stems can be cut, the foliage being very dark and heavy. One of the best, and a perfect bedder. Price, 10 cents each; large two-year-old plants, 25 cents each.

The Pretty Tea Rose, RAINBOW

This new Rose from California, which no doubt will be extensively planted, was awarded a silver cup by the State Floral Society. The color is a lovely shade of deep coral-pink, striped and mottled in the most unique manner with intense crimson and elegantly colored with rich golden amber at center and base of petals. It makes beautiful buds, and the flowers are extra large, very sweet and of great depth and substance. Price, 10 cents each; large plants, 25 cents each.

NEW ROSE, HENRY M. STANLEY

The color is a rare shade of amber-rose, delicately tinged with apricot-yellow towards the center. Reverse of petals clear buff-rose. The flowers are of good substance, very large, finely formed, and very full and fragrant. Price, 10 cents each; large two-year-old plants, 25 cents each.

The Pure White Tea Rose, THE QUEEN

The most charming Tea Rose. The offspring of that fine old Rose, Souvenir d'Ami, whose many good qualities it seems to possess in a remarkable degree. It is pure snow-white, makes good, finely-formed buds, is quite full, showing the center but slightly when fully open. The petals are thick and of good substance, opens well, is very sweet, and has proved valuable, both for forcing and open ground planting. We recommend it for extended trial, as it will be found a valuable acquisition to our list of pure white ever-blooming Roses. Price, 10 cents each; two-year-old, 25 cents.

A Charming New Tea Rose,

GENERAL ROBERT E. LEE

It is in color an orange-yellow, after the color of Mad. Capucine, only richer and better. It is a good grower, has elegant long buds, borne on long stems. It forces easily, being at its best in mid-winter. The color is so peculiar and rich that it attracts attention wherever seen. Try it. Price, 10 cents each; two-year-old plants, 25 cents each.

Champion of the World

This is in all-around qualities the greatest ever-blooming Rose in cultivation, especially for winter blooming. It is the champion bloomer. It commences to bloom as soon as potted from the propagating bench and continues in the greatest profusion all the time, both summer and winter. It is claimed that one plant of it will produce more flowers during the year than ten plants of any Tea Rose. It is always in full bloom. Plants which have bloomed all summer in the garden may be potted in the autumn, and they will immediately start new growth, and bloom profusely all winter in any window. The blossoms are perfectly double to the center, and of the most perfect shape, both in bud and blossom, while its color is a degree of loveliness which few Roses can equal, being a rich, deep, rosy-pink, darker and richer than Hermosa, and a shade the delicate richness of which is seldom seen. Its size is very large for an ever-bloomer, often as large and fine as La France or the best Hybrid Perpetual. For winter blooming this Rose surpasses all others. It will flourish and bloom profusely where all other sorts fail, and is just what has long been wanted—a fine, free flowering Rose for window culture during winter. Price, 15 cents each; large two-year-old plants, 30 cents each.

CHAMPION OF THE WORLD.

For every dollar's worth of Plants you order at price per single plant, you may select from this Catalogue 20c. worth of extra plants as premiums, except on special offers or collections, to which this offer does not apply.

YELLOW HERMOSA, Coquet de Lyon

This is a most charming yellow Tea Rose, a grand grower, has elegant buds, and is so free in flower as to be called the Yellow Hermosa. This is the best blooming pure yellow Rose in our catalogue. We sold of this Rose the past spring 35,000 plants. It is a Rose that will please all. Price, 15 cents each; large two-year-old plants, 30 cents each.

This is, without doubt, the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. It is planted everywhere on account of its color and freedom of bloom. None better. Try it. Price, 15 cents each; large two-year-old plants, 30 cents each.

WHITE HERMOSA, Marie Lambert

Pure white. It has been called the White Hermosa, as it resembles Hermosa in form and freedom of bloom, and is quite as valuable; for, though no claim has been made for it as a fancy Rose, its persistence in bloom will make it a very popular white variety for bedding or for pots. This Rose is fast becoming popular, as there is no better white Rose. It is the finest blooming white Rose we offer. Price, 15 cents each; large two-year-old plants, 30 cents each.

PINK HERMOSA, The Old Favorite

Mrs. De Graw

A Royal Rose. It is a wonderfully prolific blooming variety. Every shoot is loaded with flowers. Price, 15 cents each; two-year-old plants, 30 cents each.

The New Wichuriana Roses

These charming Roses are of the same creeping habit as Rosa Wichuriana, trailing over the ground or creeping about the trunks of trees and pillars with delightful effect. They are beautiful for their foliage alone, which is finely cut, thick and leathery, brilliant deep glossy-green. These Roses are of intense hardiness, and succeed in all soils, even on the poorest and driest conceivable.

Manda's Triumph. The gem of the collection and may well be called the Double Memorial Rose. Very large, double flowers, fully two inches across, pure white, finely formed and sweetly fragrant, borne in large clusters.

Pink Roamer. Its beautiful flowers are single, very large, brilliant rich pink with prominent orange-red stamens, and delightfully sweet scented.

South Orange Perfection. A free rambler, covered with the greatest profusion of perfectly formed, double flowers, one and one-half inches in diameter, of a lovely, soft blush-pink changing to white, which continues for a long time in perfect condition.

The Beautiful Memorial Rose, Rosa Wichuriana

Rambler Roses

This class of Roses are now being planted everywhere. They are strong and vigorous, perfectly hardy and may be trained to climb anywhere.

CRIMSON RAMBLER

The plant is of a very vigorous growth, making shoots from eight to ten feet during the season, rendering it a charming pillar Rose. It is also magnificent in bush form, and for covering buildings, trellises, etc., it cannot be excelled. One of the striking characteristics of this Rose is its remarkable color, which is of the brightest crimson, which remains undimmed in the end, showing none of the objectionable purplish tint so common in crimson Roses. The flowers are produced in great pyramidal panicles, or trusses, each carrying from thirty to forty blooms, the individual flowers measuring about one to one and a half inches in diameter and remaining perfect on the plant for upwards of two weeks with their freshness of color unimpaired. The foliage is a bright green and glossy, and contrasts finely with the bright crimson of the flowers. Price, 10 cents each; two-year-old plants, 25 cents each.

Knowing the demand for large plants, three years ago we planted in the open ground this Rose in large quantities and now have to offer large plants with canes 3 to 5 feet. Must be sent by express. Price, 50 cents.

NEW RAMBLER ROSE, PSYCHE

A seedling of the famous Crimson Rambler. Blooms in clusters of from 8 to 25 flowers each, of a delicate rosy pink shade, suffused salmon and yellow at the base. Of vigorous climbing habit, making strong shoots 8 to 10 feet long in a single season. Price, 20 cents each; two-year-old plants, 35 cents each.

The New Hardy Yellow Climbing Rose,

YELLOW RAMBLER

The flowers are borne in immense clusters, after the same manner as the Crimson Rambler. The color is a decided yellow. Many Roses which are described as yellow have really only a creamy tinge, but the Yellow Rambler is clear, decided yellow. The flowers are very sweet scented. The plants do not bloom at quite so early an age as the Crimson Rambler, but as soon as well established they more than make up for this by the magnificence of the flowers they produce. Price, 10 cents each; two-year plants, 25 cents each.

CRIMSON RAMBLER.

The Beautiful New White Climber, WHITE RAMBLER (Thalia.)

Of German origin, and in habit of growth, foliage, manner of blooming, form of flowers and hardiness it is said to be identical with Crimson Rambler, of which it is a blood relative, but that the flowers are pure snow white and sweetly scented, which the flowers of Crimson Rambler are not. Price, 10 cents each; two-year-old plants, 25 cents each.

Charming New Hardy Climbing Rose, PINK RAMBLER (Euphrosyne.)

What is said of White Rambler applies equally to this, except the color of the flowers is pure shiny rose—the partially open buds being bright, light carmine, thus producing a strong and pleasing contrast. The numerous yellow stamens lend an additional charm to the flower. Price, 10 cents each; two-year-old plants, 30 cents each.

Hardy Roses --- Hybrid Perpetuals

When you plant Hybrid Perpetuals you may be quite certain of having Roses every year without further trouble. Though called perpetual, it must be understood that they are not such early and constant bloomers as the Ever-Blooming Roses. The Hybrid Perpetual should not be ordered for house culture, as they are not suitable for that purpose. Do not become impatient if your plantings of these do not bloom the first season. Give them a chance to become established. These Roses are especially suited to plant in all the Northern States and Territories; also in the colder parts of the States of Virginia, West Virginia, Kentucky, Tennessee, North Carolina, Arkansas, Missouri, etc.

GEN. JACQUEMINOT

THE GREAT HARDY ROSE DINSMORE

We quote the introducer's description: "For years we have been looking for a variety which had all the desirable qualities of a bedding Rose—i. e., one which was of good color, fine form, a profuse bloomer, and which would stand the rigor of our Northern Winters without protection; and we can conscientiously say, that until the 'Dinsmore' was produced there was none, to our knowledge, which combined all these qualities. It is a vigorous, healthy Rose, of dwarf, branching habit, and is simply loaded with flowers all Summer long, being even more profuse than most of the tender 'ever-blooming' Roses. The flowers are large, perfectly double, and of a dazzling scarlet-crimson color, and have the rich, spicy fragrance peculiar to the best Hybrid Roses." Price, 15 cents each; large two-year-old plants, 40 cents each.

NOTE.—Do not overlook the new rose "IVORY," illustrated in color on the front of the cover.

CANNAS

America's Most Popular Bedding Plants

The Canna, with its elegant tropical foliage and its brilliant showy flowers, whether bedded out or grown in tubs, is one of our most ornamental plants and is of very easy culture. The improvements made in the Canna in the last few years in size and diversity of color, places it in advance of all other plants for bedding purposes. In the following pages we have the cream of all the late and standard sorts. Having discarded all those that show weak points, our customers cannot go wrong on any of these varieties, as every Canna offered has some points of merit.

Remember, too, that our Cannas are started plants and not dormant roots, as are often sent out.

"CANNA BED I"

For a circular bed 10 feet in diameter we offer 50 Cannas in two of the finest varieties. The plant is remarkable for its sturdy, rank growth, forming massive clumps six to seven feet high, covered from the ground up with large deep green Musa-like foliage, surmounted by tall spikes of golden yellow flowers standing upright like immense lilies. Price, 10 cents each.

ALEMANNIA.

The four varieties listed below are of the best Cannas on the market, very free flowering and easy to grow. We have tested these varieties during the last summer and find them exceptionally fine for planting singly or in beds. The "Leading Four" Cannas for 50 cents.

The Variegated Canna,

SOUV. D'ANTOINE CROZY

A Canna we can recommend as one of the best we have today. Its color is an intense scarlet, bordered with a band of deep golden yellow. The foliage is broad and deep green. It grows about 3 to 5 feet in height, making a fine variety for the border of beds. Price, 20 cents.

The Crimson Canna,

DUKE OF MARLBOROUGH

This is decidedly the darkest and richest flowered Canna in existence, being a deep crimson-maroon with a velvety appearance. A good grower, four feet high, with very dark green foliage. Price, 15 cents.

The Pink Canna,

LURAY

This new variety we consider quite an addition to the Canna family, especially in the pink varieties. The spikes of bloom are large and handsome and held well above the foliage. A beautiful shade of pure pink, a little deeper than Mlle. Berat and a little dwarfer in growth, being about 3 feet, making it a fine variety for beds. Price, 20 cents.

The Beautiful Spotted Canna,

FLORENCE VAUGHAN

Conceded by all who have seen it to be the finest yellow spotted Canna. Flowers very large, of the most perfect form, with broad, over-lapping petals, nicely rounded at the ends. Color brilliant yellow, spotted with bright red. A strong, robust grower, and flowers very freely. Price, 15 cents each.

SPECIAL OFFER—The "Leading Four" Cannas for 50 cents. Any variety for bedding in quantity, \$10.00 per 100.

MARTHA WASHINGTON

The New Pink Canna

This is a gem of the first water, of a dwarf habit, about 2½ feet; foliage rich bright green, broad and very beautiful. The color is a pure pink, a little lighter shade than Mlle. Berat. From our experience of the past season, it has proved the freest bloomer of our list. The dwarf habit makes it exceptionally fine for planting in masses or for bordering. Price, 20 cents; \$2.00 per doz.

SAM TRELEASE

The Scarlet Canna

This is one of the finest in scarlet Cannas of late introduction. Flowers are of almost ideal form and size, petals being very broad and over-lapping each other. It is the most brilliant of all the scarlet Cannas, being an intense vivid scarlet. Base of the petals is a bright golden yellow, giving the flower a decided yellow center. A strong, vigorous grower of medium height. Price, 20 cents each.

ALSACE

The White Canna

A vigorous grower, an early and continuous bloomer. The trusses, upon opening, are of a delicate sulphur yellow, changing very soon, however, to a creamy-white without spots. It is decidedly a most desirable Canna for its unique color, and will be indispensable wherever contrast in color for bedding is required. Price, 10 cents each.

JOHN LANGE

A new and very distinct Canna. Its chief characteristic is its odd color, being a deep coppery-yellow, a color that has never before been seen in the Canna family. Grows about 3 feet high, an early and constant bloomer, fine full spikes of large beautifully formed flowers. A novelty. Price, 20 cents.

CHICAGO

One of the showiest varieties. Brilliant orange scarlet. An exceedingly free bloomer and a strong grower. A fine variety for bedding and one that is used very extensively in the best parks. Price, 15 cents each.

MILLE. BERAT

The Pink Canna

This is a pink variety of French origin. Entirely distinct from any other sort. It is much the darkest of all the pink Cannas, being dark carmine-pink. Heads of bloom are held very erect and well above the foliage. A showy, effective bedder. One of the finest introductions. Price, 15 cents each.

SUNSET GLOW

Plant remarkably dwarf and compact, averaging about 2½ feet in height, flowers very large, color bright golden yellow, very faintly marked orange, or a true sunset color will describe it better. It is a little lighter shade than John Lange, but very distinct. Price, 20 cents.

The Bronzed Leaved Cannas

The New Pink

SHENANDOAH

The first of the bronze leaved varieties with a pure pink flower. The plant grows to a medium height, having broad chocolate colored foliage with a bronze-metallic lustre. The flower is large and of a very pretty shade of pink, making a pretty contrast with the bronze foliage. A fine bedding variety. Price, 20 cents each; \$2.00 per doz.

The Darkest Canna Known,

BLACK BEAUTY

A grand novelty. The most striking Canna ever introduced. The flowers are insignificant, but its foliage is superb, being of a deep, bronzy wine-red, almost black. And when foliage effect alone is wanted, or when planted to contrast with the large-flowered varieties, the effect is grand. Very scarce. Price, 20 cents, each.

The Large-Flowering Bronze Canna,

AMERICA

The first red-leaved Canna in the giant flowered class. Height 4 to 5 feet. Foliage fine glossy bronze, almost as if varnished. Flowers extra large, deep orange flamed and striped with deeper shade; entirely distinct from any other Canna, both in foliage and in flower. Price, 15 cents each.

ADMIRAL AVELIAN

The flower is of a rich orange-scarlet color, overlaid with salmon in such a manner as to give the whole a peculiarly rich luminous appearance. The habit of the plant we consider ahead of all the dark-foliage varieties, and always forming fine symmetrical plants. Price, 10 cents each.

SPECIAL OFFER.—The nine leading Bronze Leaved Cannas for \$1.20.

One of the handsomest of our foliage plants. The leaves are a bright green, gracefully arched, and as finely woven as the finest silken mesh. It is one of the finest decorative vines recently introduced; by many florists it is used instead of smilax; as easily grown and very much more beautiful on account of its light feathery growth. Price, nice plants, 15 cents each; two for 25 cents; large plants, 25 cents each.

ARAUCARIA EXCELSA.

Asparagus Sprengeri

When introduced, at a high price, this variety was received with some hesitation as to its desirability, but after only a limited trial it has come forward with such prominence that the supply will be inadequate to the demand for some time to come. Not only is it useful for cutting in sprays for fine cut-flower work, more particularly in connection with large Roses, etc., but grown in suspended pots it makes one of the prettiest decorative house plants we know of. Used in decorations, as, for example, in the decorations of mantels, nothing can equal it. It is also a handsome thing for ferneries and hanging baskets. See illustration. Price, 10 cents each; three for 25 cents; large plants, 20 cents each.

Altogether it is a most desirable subject for the conservatory or window garden. Price, 20 cents each.

It is a vigorous, rapid and healthy grower, and produces an abundance of blooms, which are bright crimson, surrounded by pearly-white petals, producing a striking contrast against the dark green foliage. BOSTON SWORD FERN

The Boston Sword Fern. (*Nephrolepis Exaltata Bostoniensis*.) A variation from the ordinary Sword Fern which originated in the vicinity of Boston, where it has been in popular favor for a number of years under the name of Boston Fern. These fronds arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern. This drooping habit makes it an excellent plant to grow as a single specimen on a table or pedestal. Price, small plants, 10 cents; large plants, 25 and 50 cents.

The Fern Novelty

Last year we sold a great many of this novelty, and while a greater part of the purchasers had success with them, yet some did not, and this year will send out the best balls that can be procured, but will not guarantee success.

The Japanese make up dormant fern roots and moss into balls that are so constructed as to send out leaves from all over their surface. They grow rapidly and are excellent ornaments for dwelling or conservatory. When first received dip into water for 10 to 15 minutes every two days until growth starts, meanwhile suspend by a wire in any desired location. After foliage starts, sprinkle as required to insure growth. Price, 50 cents each.

One of the most valuable and beautiful Palms. Its dark glossy green leaves are gracefully curved on slender stems, and the entire foliage is gracefully disposed. The trunk and stems are golden yellow. Price, nice small plants, 25 cents each.

PHOENIX RECLINATA

A fine decorative Palm; one of the finest vase plants, particularly for outdoor decoration. It is of very robust habit, and is very easily grown. Will not burn under the hottest sun, and stands whipping by the summer storms without marring its beauty. It is very effective when planted in earthen vases, and in this way is particularly ornamental for decorating court yards, verandas, etc. This is the Palm that was used so largely in vases throughout the grounds of the World's Fair. It will thrive under more unfavorable conditions than any other Palm, for which reason it is particularly adapted for hallways or other positions where other Palms would not exist. Price, only small size, 15 cents each.

KENTIA FOSTERIANA

This is one of the finest pot plants imaginable, and the easiest to grow of any of the Palm family. Being almost hardy, it is not injured by slight changes in the temperature, and its stiff, glossy leaves enable it to stand the dry, hot air of the living room without injury. The leaves are a deep, glossy green, fan-shaped, split deeply into segments. This is, without exception, the most hardy of its class. It is very graceful for table decoration. Scarcely has its equal. Price, small plants, 25 cents each; larger size, 50 cents and \$1.00 each.

MCGREGOR'S NEW MAMMOTH PANSY.

The gigantic size of the flower, luxuriant growth, profusion of bloom, and exquisite blendings of gay and fantastic color is utterly indescribable. The gigantic flowers are produced in great numbers, and borne well above the foliage on strong stems. To introduce this beautiful new strain of Pansies, we offer nice plants that will come into flower at once for the extremely low price of 25 cents per dozen; \$1.50 per 100.

NEW GIANT PANSY, MADAME PERRET

The straight and stiff stems it possesses cause the flowers to stand out well from the foliage. The color of the blossom ranges through all the shades of red, from a pink to a fine deep purple, with an intermediate bright red edged with white. The extraordinary size of the flowers, which reach as much as 3 to 3½ inches in diameter, make it a novelty of the first rank, and one that is sure to be sought after by lovers of Pansies. Price, 5 cents each, 50 cents per dozen. Seed, 20 cents per packet of 100 seeds.

NEW GIANT CURLED PANSY, MASTERPIECE

In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. Price, 5 cents each, 50 cents per dozen. Seed, 20 cents per packet of 100 seeds.

The Baby Primrose

(Primula Forbesi)

It is a wonderfully free-blooming plant, commencing to flower as soon as born. It is raised from divisions; also from the seed, though the latter method is undesirable owing to the uncertain and variable character of the seedlings. It forms a dense rosette of somewhat fleshy leaves, from which spring the flowering stems, twelve, fifteen and even twenty inches tall, supporting three tiers or whorls of dainty flowers of a delicate rosy-lilac, with eye of pale gold. The flowers are not more than half an inch in diameter, but they are produced in such great abundance that few plants present a dense mass of bloom, which continues without interruption and with increasing vigor from September until June. Price, 10 cents each; three for 25 cents.

The New Giant Flowered**Primula Obconica**

Price, 15 cents each, or the two for 25 cents.

Obconica Grandiflora. This is a plant of new introduction and very much superior to the old Obconica. The flowers are pure white and borne in the same manner as the Chinese Primrose. On account of the large flower, stiff and long stem and the pretty foliage, it has attracted a great deal of attention at the late flower shows.

Obconica Carminea. This variety is the same as the variety above in every particular except color, which is a carmine rose, which is very effective against the bright green foliage.

STEPHANOTIS FLORIBUNDA

This is a well known vine for house culture that is always scarce, being difficult of propagation. We have been fortunate to grow a stock of several thousand fine plants. It is a hard wooded vine, with thick, leathery leaves, bearing bunches of pure white flowers that are deliciously fragrant. Indeed, it is the most charming of all fragrant flowers. Price, 25 cents each.

A New Decorative Plant of Great Value

There is scarcely a decorative plant listed that is more striking in foliage and habit than this, and certainly none other that stand as much downright neglect and hardship as well as this. Nothing but frost or continual drenching with water has terrors for it. It will grow in a dark hall, a cool bedroom, or stand on the mantel in a heated sitting-room. It will stand gas and dust, and will go for months without a drop of water, yet remain as thrifty as ever. Singularly beautiful, as well as easily grown. McGregor's Select Hardy Flowers

Hardy perennials are those plants which die down in winter but start again in the spring from the root, lasting many years and flowering every year. Never before have they been so popular, and from present indications of a desire for hardy plants, the demand for them will continue to increase, which will make them as popular in the United States as they have been in the horticultural centers of Europe for many years. Some are very useful for screens, some for hedges, rockeries, steep banks and terraces, others for bedding, edging and bordering and cemetery planting; then again others are fine for cutting to be used as table decorations.

Cultivation is of the simplest, beginning with any good garden soil for a foundation, which may be enriched with any good fertilizer, such as well decomposed manure or bone meal, deeply dug, well pulverized, in which the plants should be set as early in the season as possible, so as to enable them to become well rooted and established before hot dry weather sets in, keeping the ground well stirred, and where it is not convenient to water the beds during hot dry weather, a mulch of any loose material which will keep the soil from baking will be found beneficial.

McGregor's Select Flower Seeds

No garden is complete without a fair assortment of the beautiful flowers which can be raised from seed with little care and expense. For a very little money one can get a variety of the best flowers for cutting from early Spring until frost.

SUCCESS COLLECTION.

We have used the greatest care in obtaining our flower seed, and those we offer you are absolutely fresh, being grown under our personal supervision or imported from the best foreign seed growers. Failure in getting satisfactory results from seed planting may be attributed to the manner in which the seed is sown, rather than the lack of germinating power in the seed, and seedsmen are unjustly censured when the fault lies in the cultivator and not in the seed.

Sowing of Seeds. Spade the soil in the seed bed to a good depth, work it over and over with the spade in order to mash the small clods. Sow the seed in drills or broadcast, according to the kinds, covering carefully and lightly, there being more danger in covering too much than not enough. Never allow the seed to dry out.

For seeds that require an early start, to secure blooms before frost, sow in shallow wooden boxes—in good garden soil. Cover seeds very lightly, keeping the box in a sunny window, covering the box with a pane of glass until the seeds begin to sprout, but never allow the soil to dry out.

Transplanting of Seedlings. Do not allow the little plants started in the boxes to grow too tall before transplanting. Care should be used in watering the seedlings well after planting and to protect from the sun for a few days with light paper.

SEED PREMIUMS

Remember you are entitled to twenty cents worth of seeds as premium on every dollar's worth of seeds ordered in single packets. No premiums on Seed Collections.

Order your seeds as soon as possible as they can be sent during the cold weather.

Soak the seed in warm water for a day or two before planting. Plant seeds one-half inch deep one inch apart in shallow boxes of rich soil early in the spring and place in a warm sunny window. When plants show two leaves transplant to pots and do not set out till nights are quite warm and trees are in full leaf.
